Documents to read before applying

Important links

Helpful tips

Write your proposal in clear, plain language. Use non-technical terms that can be understood by a range of audiences with varied areas of expertise.

SSHRC advocates for the practices listed below when applicable in your application. In addition, costs related to these activities are eligible:

- responsible research data management strategies;
- open access publishing activities;
- dissemination in both official languages;
- promotion and support of official language minority communities; and
- effective research training.

- If you experience technical difficulties, contact the [helpdesk](#) as early as possible in the application process. The helpdesk has a higher volume of requests during peak periods (i.e., September 1 to December 1) and on deadline days.

Application process

Accessibility

If you need help completing online application forms due to a disability, contact your institution or organization to assist you. For any questions or specific arrangements, contact [SSHRC accommodations](#). SSHRC can arrange an alternate, confidential communication option upon request. Any personal information provided as part of this request will be protected according to the [Privacy Act](#).

Applicant or project director responsibilities

By clicking “Submit,” the applicant or project director certifies that all information is accurate. They are also responsible for:

- completing all mandatory fields (bold labels);
- attaching mandatory electronic files (application);
- ensuring all co-applicants and collaborators have submitted their “Accept Invitation Form;”
- verifying and correcting the data until the “Verification Report” confirms verification;
- clicking “Submit” (to research administrator) for approval by your institution’s or organization’s internal deadline. The electronic submission process ensures validation of the information by an institution’s or organization’s administrator before they forward your application to [SSHRC](#) on your behalf (status is “Forwarded”). Once processed by [SSHRC](#), the status will change to “Received;” and
- ensuring that invited partner organization has submitted its “Partner Invitation Form.”

Research or financial administrator responsibilities

By clicking “Forward” (Forward to [SSHRC](#)), **the research or financial administrator (institutional approval)** certifies that:

- the applicant or project director:
 - is affiliated with the institution or organization; and
 - has the necessary time and facilities to carry out the activity;
- the postsecondary institution or the not-for-profit organization:
 - is willing to administer any grant received according to [SSHRC](#) policies;
 - agrees to take the necessary steps to ensure that machine-readable files or computer databases are preserved and accessible under conditions agreed to by the institution and the researcher;
 - will release funds to the successful candidate once all necessary certification requirements and conditions have been met;
 - will notify [SSHRC](#) of any change in the grant holder’s status during the tenure of the grant; and
 - has verified that the budgetary estimates are in accordance with its rates and policies.

Electronic submission process and acknowledgement of receipt of applications

Applicants must allow enough time for their institution’s or organization’s internal approval process, as specified by the relevant authorities. [SSHRC](#) will acknowledge receipt of your electronic application form and will assign you an application number. Please cite this number in all correspondence with us.

- Applications remain available for download via the [SSHRC](#) online system for 30 days after the

deadline, after which they are deleted.

Attaching a document

Many modules in your application will require you to attach a PDF document. You must follow the specified requirements for margins and font size, or your application will be rendered ineligible. An error message will appear if the file you are trying to attach does not meet the required specifications for page length and file size. Once you have attached the electronic file, we recommend you click “View attached file” to ensure you have the proper file and that your file is not corrupted.

Identification (mandatory)

Application title

Provide a short, descriptive title for your proposal in non-technical terms. Restrict use of acronyms (e.g., UN, NATO). Use uppercase for only the first word of the title, proper nouns and acronyms.

Type of partnership

Indicate whether this is a new or existing partnership. A new partnership is one that was developed for the purposes of submitting an application to this funding opportunity.

Joint initiatives

See [SSHRC's funding search tool](#) for a complete list of joint initiatives that may be relevant to your application. If you want your project to be considered for one of these initiatives, select it in the drop-down list in the “Joint or special initiative” field in the identification module.

Research-creation proposals

Before you select “Yes,” refer to the definition of [research-creation](#) for more information and examples of fields involving research-creation. If you select “Yes,” refer to [Research contributions and relevant experience](#) and the [Guidelines for Research-Creation Support Materials](#) for instructions regarding creative outputs and support material.

Does your proposal involve Indigenous research, as defined by SSHRC?

Select “Yes” if you wish to signal to the adjudication committee that your application should be reviewed in the context of SSHRC's definition of [Indigenous research](#) and its [Guidelines for the Merit Review of Indigenous Research](#).

Applicant (project director)

The information listed in this section has automatically been transferred from your [CV](#).

Names and initials

This information has automatically been transferred from your account. To change your family name or first name, you must contact webgrant@sshrc-crsh.gc.ca. To change your initials, you must return to the “My Account” section of your portfolio to update the information.

Organization

The organization has automatically been transferred from the “current position” screen of your [CV](#). To have a different affiliation on record for this application, click “List...” and make the necessary selection.

Administering organization (individual grants) or lead organization (institutional grants)

Only an [eligible Canadian institution or organization](#) can administer grant funds. Institutions or not-for-profit organizations interested in administering [SSHRC](#) individual or institutional grants must meet the [Institutional Eligibility Requirements for the administration of grants and awards](#), which is independent of the application process.

Activity details / research activities (mandatory)

Ethics

State whether or not your proposal involves human beings as research subjects. If it does, select “Yes” and consult the [Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans —TCPS 2 \(2018\)](#) and submit your proposal to your organization’s research ethics board.

Impact Assessment

The [Impact Assessment Form](#) (Appendix A) must be completed and submitted with grant applications **ONLY** if at least one of the following situations applies to your research or research-related activities, as per the [Impact Assessment Act](#), 2019 (IAA):

- any phase of the proposed research takes place on federal lands, other than lands under the administration and control of the Commissioner of Yukon, the Northwest Territories or Nunavut, as interpreted in section 2 of the [IAA](#);
- any phase of the proposed research takes place in a country other than Canada;

- the grant funds permit a designated project (listed in the [Physical Activities Regulations](#)) to be carried out in whole or in part; or
- any phase of the proposed research depends on a designated project (listed in the [Physical Activities Regulations](#)) being led or carried out by an organization other than [SSHRC](#).

If none of these situations apply to your proposed research activities, then Appendix A is not needed.

Keywords

List keywords, separated by semicolons, that best describe your proposal.

Disciplines, areas of research, temporal periods, geographical regions and countries

Indicate and rank each entry relevant to your proposal, with Entry 1 as the most relevant and the last entry the least relevant.

Partnership approaches

Partnership arrangements are defined by the nature of the activity/activities to be carried out. Select one or more possible [formal partnership](#) approaches in the drop-down menu. If your approach is not listed, select “other” from the list and type your approach in the box provided.

Approaches available within the Partnership Engage Grants can include, but are not limited to, the following:

- cross-sector co-creation of knowledge and understanding;
- disciplinary and interdisciplinary research partnerships;
- partnered knowledge mobilization; and
- a combination of approaches.

Disciplines, areas of research, temporal periods, geographical regions and countries

Indicate and rank each entry relevant to your proposal, with entry 1 as the most relevant and the last entry the least relevant.

Participants

Invited participants **do not submit [SSHRC CVs](#)**. See module Co-applicants with [SSHRC CV](#) to invite up to 10 co-applicants with [CVs](#). Additional co-applicants without [CVs](#) may be invited in this module along with any collaborators. Co-applicants invited in this section may include an optional one-page biographical sketch.

Participant invitation process:

- Select the role.
- If applicable, select “academic” or “non-academic.”
- Enter the family name. **If you incorrectly type in a participant’s family name**, you will receive an error message. The system will recognize the discrepancy only after the participant has accepted the invitation. For your application to be successfully verified, the participant’s family name must be identical to the family name found in SSHRC’s database.
- Enter the email address.
- Click “Save.” The system will generate an email to each person, inviting them to participate in the application.

□ **It is the responsibility of each invited person to complete, verify and submit their “Accept Invitation Form”.**

□ **Note:** Your application will not be “Verified Successfully” if all participants you invited have not successfully completed and verified their invitation.

Status	Definition
Invitation not yet accepted	Participant has not accepted the invitation. OR If the participant deleted the system-generated invitation email by error, as the applicant you can click “Resend email,” and the same invitation will be sent again. OR If the participant has declined the invitation, you must remove the person from the application by clicking “Clear entry.”
Invitation accepted but not yet verified	Co-applicant has accepted the invitation and a copy of their <u>CV</u> was attached to their “Accept Invitation Form” on creation. The “Accept Invitation Form” is incomplete. Click “View <u>CV</u> ” to preview the co-applicant’s <u>CV</u> and form.
Invitation accepted but not yet verified	Collaborator has accepted the invitation and the “Accept Invitation Form” was created. Click “View Form” to preview the collaborator’s form.

Invitation accepted and verified

Co-applicant's "Accept Invitation Form" has been completed and verified. Click "[View CV](#)" to preview the co-applicant's [CV](#) and form.

OR

Collaborator's "Accept Invitation Form" has been completed and verified. Click "View Form" to preview the collaborator form.

SSHRC CV

Co-applicants must do the following:

- Co-applicants affiliated with a **postsecondary institution** must submit a full [SSHRC CV](#).
- Co-applicants from a **non-academic organization** have the option of submitting a full [SSHRC CV](#) or only completing the following mandatory fields:
 - Identification module—Correspondence language
 - Identification module—Permanent postal code
 - Current Position module—Organization, department, start date
 - Current Position module—Address
 - Current Position module—Primary phone number
 - Research Expertise module—Keywords
 - Research Expertise module—Discipline #1

Research contributions and relevant experience attachment

In addition to meeting the [CV](#) requirements above, co-applicants must also provide [PDF attachments](#) describing their research contributions and relevant experience.

A copy of the co-applicant's [CV](#) will be attached to the "Accept Invitation Form" upon creation. The applicant will then be able to view each co-applicant's [CV](#). The [Co-applicant Instructions](#) outline the sections that may be included in the attachment. Co-applicants may choose to devote more space to certain sections depending on the nature of their past contributions and experience (for example, non-academic participants may choose to have a larger Relevant experience section).

Invited partner organizations (mandatory)

Invitation process:

1. Enter the family name, given name and email address of the partner organization contact.
2. Click "Save." The system will generate an email to each contact person, inviting them to participate in the application.

It is your responsibility as the project director to ensure that the invited person verifies and completes the form in advance of the application deadline.

- **Note:** Your application will not be “Verified Successfully” if all the contacts you have invited have not successfully completed and verified their invitation.

Status	Definition
Invitation not yet accepted	Partner organization contact has not accepted the invitation.
Invitation not yet accepted	If the partner organization contact deleted the system-generated email by error, as the applicant you can click “Resend email,” and the same invitation will be sent again.
Invitation refused	Partner organization contact was unable to complete the form.
Invitation accepted but not yet verified	“Partner Organization Form” has been created but incomplete. Click “View” to preview the form.
Form completed	“Partner Organization Form” has been verified and completed. The form will be attached electronically to your application once it has been submitted to <u>SSHRC</u> .

It is the responsibility of the invited partner organization contact to complete, verify and submit their “Accept Invitation Form,” including their Letter of Engagement. The letter should be written on official letterhead and include the following:

- the relevance and significance of the project objectives for the partner organization;
- the exact nature of the involvement of the partner organization during the lifespan of the project, including the intellectual leadership and governance of the partnership, where appropriate;
- precise details on the financial and/or [in-kind contributions](#) to be provided by the partner; and
- the expected outcomes that the partner organization wishes to achieve.

By submitting, the partner organization is acknowledging that it has read and agrees in principle with the objective(s) of the proposal.

Summary of proposal (mandatory)

Maximum one page

Provide a clear summary of your proposal indicating:

- the challenges or issues to be addressed;
 - the overall goal and objectives of the proposed partnership; and
 - the breadth of the partnership, and the meaningful engagement of the partner organization involved.
-

List of references or bibliography (mandatory)

Maximum five pages

List all references cited or works referred to in your proposal. [SSHRC](#) recognizes and allows the use of different referencing styles.

Expected outcomes (mandatory)

The project's expected outcomes are essential for the adjudication of the proposal and are part of the Challenge evaluation criterion. Elaborate on the potential benefits and/or outcomes of your proposed project. You will be able to share how your outcomes have evolved in follow-up achievement reports.

Outcomes

Research and related outcomes include enhanced curriculum and teaching material, enriched public discourse, improved public policies, enhanced business strategies and increased innovations in every sector of society, as well as graduate supervision opportunities. Research outcomes, which are facilitated by the effective mobilization of knowledge, then permeate daily life in the form of new thinking and behaviour that lead to improvements in our economic, social, cultural and intellectual well-being.

For "Scholarly benefits," "Social benefits" and "Audiences," indicate and rank selections in order of importance. If the information is not listed, select "Other" from the list and type the information in the box provided.

Expected outcomes summary

Describe the potential long-term benefits and outcomes (e.g., evolution, effects, potential learning and implications) that could emerge from the proposed project as a result of knowledge mobilization activities.

Goal and project description (mandatory)

Maximum five pages

Before writing your proposal, consult the [evaluation criteria](#) in the funding opportunity description. In your description, provide the following information:

- State the overall goal and specific objectives that the partnership will address and demonstrate the relevance and significance of these objectives for the partner organization.
- Describe the originality, significance (social, economic, cultural and intellectual) and expected contribution to knowledge in the social sciences and/or humanities of the proposed project.
- Demonstrate the appropriateness of the theoretical and methodological approaches that will be chosen to meet the stated objectives. Include a literature review. [SSHRC](#) encourages applicants to discuss, if applicable, how research data arising from the project will be managed, including collection, preservation and sharing.
- Outline a plan to increase knowledge uptake by target audiences, and anticipated outputs, outcomes and/or impacts of social sciences and humanities knowledge among various appropriate audiences or participants (academic and/or non-academic).
- Explain how the partner organization will participate in the intellectual leadership and decision-making process of the partnership, and how your application integrates the expertise of the partner organization.
- Describe the roles, responsibilities and contributions of the applicant and co-applicants/collaborators, if applicable, and how the activities and expertise of each member will support and enhance the proposed partnership.
- Describe the specific roles and responsibilities of students, [emerging scholars](#) and/or other highly qualified personnel, indicating the work they will be undertaking.
- Outline the confirmed or proposed contributions of your host institution, the partner organization and/or other sources.

- Contingency plans related to the potential impact of the COVID-19 pandemic on your research project may be described in this section, if appropriate. This is not mandatory, but it may assist the merit review committee in assessing the feasibility of your proposal if your research plans are significantly disrupted, e.g., if international travel is not possible.

Mitacs Accelerate internships

If you selected “Mitacs Accelerate internships” as a “Joint or special initiative” under Identification, provide summary information about the proposed internship(s), such as the objectives, expected deliverables, benefits to interns, percentage of time to be spent onsite with the partner organization and planned activities.

This funding opportunity's recipients are automatically preapproved for Mitacs Accelerate internships. Interested grant holders must submit a completed Mitacs Accelerate application form to Mitacs after [SSHRC](#) competition results have been announced. To access the Accelerate application form, contact a [Mitacs business development representative](#).

Mitacs internships cannot be the only mechanism for training included in a research project, and must be co-funded by partner contributions separate from the partner funding contributions made toward the [SSHRC](#) grant.

Research-creation support material (if applicable)

Maximum one page

You **must** include a website link to provide samples of work that best illustrate the qualifications of the team and/or the nature of the proposed research-creation.

When including a website link, please follow these instructions:

- Provide the complete and exact URL and indicate the path to access the intended support material on the website.
- Include a list of up to three works or excerpts of works to which you would like to direct the reviewers (e.g., images, audio, video, written material). Please provide titles, dates of creation/production and a brief context for the works presented. Explain why you are including these items and how they relate to your proposed project.
- Ensure that the website and all links involved will be operational up to six months after the application deadline.
- Specify the browser and version that should be used.

□ **Note:** [SSHRC](#) assumes no responsibility in cases where links provided are broken or the server is unavailable during the adjudication period. Reasonable efforts will be made to view or listen to support material; however, due to technical challenges, [SSHRC](#) cannot guarantee that the samples will be accessed. Please consider that reviewers will have very limited time per application to view, read or listen to samples of work. Note that only links provided in the support material attachment will be used by merit reviewers.

□ See [SSHRC's Guidelines for Research-Creation Support Materials](#) for more information.

Funds requested from [SSHRC](#) (mandatory)

Estimate the costs you are asking [SSHRC](#) to fund. All budget costs must conform to the rates and regulations of the applicant's or project director's institution or not-for-profit organization and take into account the [Tri-Agency Financial Administration principles governing the appropriate use of funds](#). All costs must be justified in terms of the needs of the project, including costs for organizing and integrating team activities and for communicating results to audiences, stakeholders and the public. The budget will be adjudicated according to the appropriateness of the requested budget, and to the justification of other planned resources (e.g., time, human and financial), including [cash and in-kind support](#) already or to be secured from partner organizations.

- **Note:** [SSHRC](#) provides the following guidelines to committee members regarding the adjudication of the budget subcriteria of the overall feasibility score:
 - Committees may consider failing a project on the Feasibility criterion if they determine that 30% or more of the overall budget request is insufficiently justified and/or not appropriate to the proposed objectives or outcomes of the project.
 - Committees will use the principle of minimum essential funding to guide their budget discussions.
 - Committees may recommend budget reductions when they determine the request is inadequately justified and/or not appropriate as described above, and where they judge that savings could be achieved without jeopardizing the project objectives.

Enter amounts rounded to the nearest dollar without any spaces or commas (e.g., 2000). For blank entries, leave in the "0" value.

Personnel costs

For each of the categories below, enter the number of students and non-students you plan to hire, whether as salaried employees or as recipients of stipends.

Student and non-student salaries and benefits

For each applicable category, enter the number of students and non-students to be hired. Specify the total amount to be paid. When students are paid by wage, the amounts should follow the university's collective agreement or policy.

Student stipends

You may request stipends for graduate students and postdoctoral researchers. Stipends must be justified in terms of the research, research training and/or research-related objectives. The work performed by stipend recipients should be an integral part of the project. Stipend rates are set by the institution concerned.

Other—Salary research allowances

[Salary research allowances](#) are an eligible expense. These stipends cover up to 50% of the cost of temporarily replacing an employee from a Canadian not-for-profit organization who will be devoting their time as a co-investigator on a [SSHRC-funded](#) research project. The request for a salary research allowance must be justified in the proposal.

Salary research allowances can be used only by not-for-profit organizations that have co-applicants listed on their Notice of Award. Researchers holding an academic position at a postsecondary institution and government employees are not eligible for salary research allowances.

Note that a salary research allowance is not a salary for the co-applicant, but is paid to the Canadian not-for-profit organization to offset the costs of replacing its employee.

- For further information, please consult [SSHRC's Salary Research Allowances policy](#).

Travel and subsistence costs

Enter, by budget year, the total amounts requested for travel abroad and within Canada for both the research team and student personnel. Travel and subsistence costs must be based on rates approved by the institution or organization that will administer the funds.

Subsistence costs must be based on rates approved by the institution or organization that will administer the funds.

Other expenses

Professional or technical services

Consulting fees for professional and technical services are eligible expenditures only if the budget justification demonstrates that expert advice is needed.

Supplies

You may include other supply items (e.g., software, stationery, postage and telephone calls) only if they directly relate to the research and are not provided by the administering institution to their research personnel or by the employer.

Non-disposable equipment—computer hardware

Purchase or rental of computers and associated hardware is allowable only if these are not accessible through the postsecondary institution or employer.

Other non-disposable equipment

Purchase or rental of equipment (e.g., audio or video equipment) is allowable only if it is not accessible through the postsecondary institution or employer.

Other expenses

Specify other research and/or related expenses not already included.

Budget justification (mandatory) Maximum one page

Using the categories listed on the [Funds requested from SSHRC](#) page, explain how you will use the funds in each budget category to achieve the project objectives. For example, under the student and non-student salaries and benefits categories, explain why these people need to be hired to meet the project's objectives. Applicants are reminded of SSHRC's mandate to provide training opportunities for students, [emerging scholars](#) and other highly qualified personnel, as applicable. Budget costs for research assistants, associates or project support personnel who are not students must be fully justified in terms of the needs of the project. Justify any funds that appear in the category "Other."

Please ensure that your budget requests are in accordance with the level of funding that is essential to complete the proposed activities. Note that the adjudication committee may deem your application less competitive if it finds that you are requesting non-essential funding. Committees will use the principle of minimum essential funding to guide their discussions of project budgets.

- Note:** In reviewing the funding you have requested, committee members take into account the quality of your overall financial planning, your justification of the proposed expenditures, and the institutional and partner organization funding that you have secured. It is also important to indicate how the budget requested from SSHRC and the partner's contributions will complement each other and benefit the objectives of the partnership.

Funds from other sources

List all contributors (e.g., host institution or organization, individuals, not-for-profit organizations, philanthropic foundations and private sector organizations) that are providing [cash and/or in-kind contributions](#) for the proposal. Indicate whether or not these funds have been confirmed.

Contributions from partner organizations should not be included in this section.

If a funding source is not listed, select "Other" using the "List..." button. Type in the source name and amount and identify the contribution type.

If you have received more than one contribution of the same type from a single funding source (i.e.,

cash or in-kind) and same confirmation status, you must combine these into one entry (e.g., two confirmed \$20,000 cash contributions from a university become one confirmed \$40,000 cash contribution). Enter amounts rounded off to the nearest dollar—in Canadian currency—without spaces or commas (e.g., 40000). For blank entries, leave in the “0” value.

When you save the data, five new blank entry lines will be added to the screen to allow you to enter additional funding entries, if necessary.

Total project cost

Each partner organization will complete a Contributions from Partner Organization page (i.e., budget) indicating whether each budget item has been confirmed. When all Contributions from Partner Organization pages have been submitted, the amounts from each budget item will be automatically totalled. After the data are saved, the system will automatically display these totals in a PDF version of this page of the application form.

A. Total of all partner organizations’ contributions

The system will total the values entered for “Cash” and “In-kind.”

B. Total funds from other sources

Once you complete the “Funds from Other Sources” screen and save the data, the system will display the totals on line B.

C. Total funds requested from SSHRC

For each year, the amounts from “Student salaries and benefits / Stipends” to “Other expenses (specify)” will be automatically totalled. After the data are saved, the system will automatically display the totals on line C.

Total cost of project (A + B + C)

The system will automatically add lines A, B and C.

Impact Assessment—Appendix A

If you have selected “Yes” to at least one of the questions in the Impact Assessment section on the Activity Details screen, you must complete an [“Impact Assessment Form”](#) (Appendix A) and upload it to the Impact Assessment page.

If none of these situations apply to your proposed research activities, then Appendix A is not needed.

Exclusion of potential reviewers (if applicable)

Maximum one page

List potential reviewers who would be unlikely to provide an impartial review, in your opinion. Provide a justification for excluding potential reviewers (e.g., experts with whom you or members of your research team have had serious disputes). While SSHRC cannot be bound by this information, it will take it into consideration in the selection of reviewers.

This information will be held in strictest confidence and will not be provided to external reviewers or members of the adjudication committee. Any exclusion should be renewed with any subsequent applications, if still relevant.

Research contributions and relevant experience (mandatory) Maximum five pages

Project directors must attach Research contributions and relevant experience. You have five pages in total to address the sections below, as applicable. You may choose to devote more space to certain sections depending on the nature of your past contributions and experience. The attachment should be presented in this order, as applicable:

1. [Relevant research contributions over the last six years](#)
2. [Other research contributions](#)
3. [Most significant career research contributions](#)
4. [Career interruptions and special circumstances](#)
5. [Contributions to training](#)
6. [Relevant experience](#)

1. Relevant research contributions over the last six years

Outline your research contributions within six years of the application deadline date. In the case of those candidates claiming career interruptions ([see 4. below](#)), you may include publications drawn from your most recent periods of research activity to an overall total of six years.

Provide details, as appropriate, about the contributions you listed, as follows:

- In the left margin, identify with an asterisk (*) research contributions that resulted from previous SSHRC support.
- Specify your role in co-authored publications.
- For published contributions, provide complete bibliographic notices (including co-authors, title, publisher, journal, volume, date of publication and number of pages) as they appear in the original publication.
- For publications in languages other than French or English, provide a translation of the title and the name of the publication.

- For recent graduates, list theses.

Group your contributions by category in the following order, as applicable, listing your most recent contributions first.

Refereed contributions

Examples include books (where applicable, subdivide according to those that are single-authored, co-authored and edited works), monographs, book chapters, articles in scholarly refereed journals and conference proceedings.

Be aware that a “refereed work” involves its assessment:

- in its entirety—not merely an abstract or extract;
- before publication; and
- by independent (at arm’s length from the author), anonymous, qualified experts.

Other refereed contributions

Examples include papers presented at scholarly meetings or conferences and articles in professional or trade journals.

Non-refereed contributions

Examples include book reviews, published reviews of work, research reports, policy papers and public lectures.

Forthcoming contributions

Indicate one of the following statuses: “Submitted,” “Revised and submitted,” “Accepted” or “In press.” Provide the name of the journal or book publisher and the number of pages. Contributions not yet submitted should not be listed.

Creative outputs

Examples of creative outputs may include exhibitions, performances, publications, presentations, and film, video and audio recordings. List your most recent and significant achievements grouped by category. Creative outputs will be evaluated according to established disciplinary standards and creative and/or artistic merit.

If applicable, you may include a website link. [SSHRC](#) cannot guarantee that links will be accessed.

2. Other research contributions

Describe any other contributions to research and the advancement of knowledge within the last six years, including your research contributions to non-academic audiences (e.g., public, policy-makers, private sector and not-for-profit organizations).

3. Most significant career research contributions

List and rank up to five of your most significant contributions over your entire career. The six-year rule does not apply to this section. Therefore, contributions listed here may differ from those listed in other sections of your [CV](#). Please ensure that you explain briefly the significance of the contributions listed.

4. Career interruptions and special circumstances

Career interruptions occur when researchers are taken away from their research work for an extended period of time for health, administrative, family or other reasons, or reasons related to the COVID-19 pandemic. In these cases, as explained above in the [Relevant research contributions over the last six years](#) section, explain the interruption(s) and ask that an overall total of six years of research activity be considered by the adjudicating committee.

Special circumstances involve slowdowns in research productivity created by health (and/or disability-related), administrative, family, cultural or community responsibilities, socio-economic context, COVID-19 or other reasons (i.e., the researcher was not completely taken away from research work). Applicants from small institutions may indicate their teaching load in this section if the change in workload impacted their research output.

Indigenous applicants can use the “Special Circumstances” section of their application form to describe special circumstances that may have had an impact on their academic or career paths.

[SSHRC](#) asks its adjudication committees to consider career interruptions and special circumstances that may have affected candidates’ record of research achievements. In doing so, adjudication committee members will be able to more accurately estimate the productivity of each researcher, independent of any career interruptions or special circumstances in the last six years. Previous productivity is one element that may predict the success of the proposed research project.

All information provided to [SSHRC](#) is subject to the [Privacy Act](#). Applicants are reminded that the information included in this section of their application will be shared with both external assessors and adjudication committee members for consideration as part of their application. For more information, see [merit review](#). All [SSHRC](#) merit reviewers are subject to the [Tri-Agency Conflict of Interest and Confidentiality Policy](#), and are prohibited from sharing this information outside of the merit review process.

5. Contributions to training

Provide the following information on students you have helped train within the last six years.

- Indicate your role in supervising or co-supervising ongoing and/or completed theses, listing these by the student’s level of studies.
- Describe efforts you have made to involve students (e.g., doctoral, master’s or undergraduate) in your research activities.

- Specify if opportunities for such contributions have been limited because your postsecondary institution does not have graduate degree programs in your field or discipline.

6. Relevant experience

In the Relevant experience section, non-academic and academic project directors can describe their previous experience that is relevant to the topic and objectives they are investigating in the application, including their experience in engaging in and/or leading formal partnerships and collaborative research. Please justify how this experience will aid you in the proposed activity.

Examples of relevant experience include: working within or with communities and/or organizations (e.g., not-for-profit, public and private sector organizations), non-academic career information, or voluntary work. Include:

- your experience in engaging in and/or leading formal partnerships and collaborative research;
- a brief description of the nature of the work you performed;
- an explanation of how this work has prepared you for your role in the project; and
- a description of the skills you developed (e.g., training, mentoring, analysis, networking).
